# NITESH SURYAVANSHI

Bhopal, India — +91 9893697613 — niteshsuryavanshi989@gmail.com
LinkedIn — LeetCode — GitHub

## PROFESSIONAL SUMMARY

Computer Science graduate with internship experience in Java full-stack and software development. Strong in Java, DSA, REST APIs, SQL, and OOP. Hands-on with Spring Boot, Spring Security, React, Docker, Git, Postman, Linux, AWS fundamentals, and Kubernetes basics. Experienced in backend development, API integration, debugging, and database operations.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Java, Python, JavaScript |
| **Backend** | Spring Boot, Spring MVC, REST APIs, Spring Security |
| **Frontend** | React, HTML5, CSS3 |
| **Database** | MySQL, PostgreSQL, SQL |
| **DevOps** | Docker, CI/CD Fundamentals, GitHub Actions, Kubernetes (Basic) |
| **Cloud** | AWS, AWS EC2, AWS Cloud Fundamentals |
| **OS** | Linux, Windows |
| **Tools** | Git, GitHub, Postman, Maven |
| **Core** | DSA, OOP, DBMS, OS, Computer Networks, SDLC |
| **Soft Skills** | Problem Solving, Team Collaboration, Communication, Quick Learning |

## WORK EXPERIENCE

**AMDOX Technologies, Bengaluru** **Jun 2026 – Aug 2026**

*Java Full Stack Intern*

- Completed a Java Full Stack internship with practical exposure to software development and application workflows.
- Worked on assigned Java development tasks and gained practical understanding of application functionality.
- Worked with the development team and applied problem-solving skills to assigned tasks.

**MPOnline Limited, Bhopal** **Oct 2025 – Mar 2026**

*Software Development Intern*

- Worked on web applications using ASP.NET and SQL.
- Worked with backend functionality, database operations, REST API integration, and troubleshooting.
- Performed debugging and issue analysis to identify and resolve application problems.
- Assisted with API integration and verified application functionality after fixes.

## PROJECTS

**Field Service & Network Incident Management System** *Java 21, Spring Boot, PostgreSQL, React, Redis, Kafka, Docker*

- Developed an enterprise platform to manage customers, project sites, network equipment, engineers, and network incidents.
- Built REST APIs using Spring Boot for incident creation, engineer assignment, status tracking, work updates, and resolution management.
- Implemented authentication and role-based access control using Spring Security and JWT for Admin, Manager, Engineer, and Viewer roles.
- Used PostgreSQL with JPA and Hibernate for database operations and Redis for caching frequently accessed dashboard data.
- Integrated Apache Kafka for event-based incident notifications and audit events and used Docker for application containerization.

**Production Change & Deployment Risk Management System** *Java 21, Spring Boot, PostgreSQL, React, Redis, Kafka, Docker*

- Developed an enterprise platform to assess, approve, track, and analyze production changes across services, servers, and environments.
- Built REST APIs using Spring Boot for change requests, service dependencies, approval workflows, deployment tracking, and rollback management.
- Implemented dynamic risk scoring based on affected services, dependencies, downtime, customer impact, and deployment history.
- Used PostgreSQL with JPA and Hibernate for change, deployment, approval, incident, and audit data, and Redis for caching dependency and dashboard data.
- Integrated Apache Kafka for deployment events, notifications, audit events, and post-deployment incident correlation, with Docker for containerized deployment.

## EDUCATION

**Barkatullah University, Bhopal** **2021 – 2025**

B.Tech in Computer Science and Engineering **CGPA: 7.72/10.0**

**Jawahar Navodaya Vidyalaya** **2020 – 2021**

Class XII – **85.20%** Class X – **87.8%**

## ACHIEVEMENTS & CERTIFICATIONS

- Cleared TCS NQT/NPT Assessment.
- Solved 200+ DSA problems on LeetCode.
- AWS Academy – Cloud Foundations Certification.
